- (3) It is believed that these trains of gondola cars are to be used for raw materials delivered by the U.S.S.R. to the Soviet Zone of Germany. These trains possibly continue the operation reported previously.
- (4) This information indicates that military shipments to and from the Ohrdruf troop training grounds use only the railroad line coming from the north. It is believed that the statement on the poor status of the Ohrdruf-Arnstadt railroad line refers only to the Ohrdruf-Graefenroda section which is a single-track branch line.
